PROFILE

As a Junior Developer I am eager to display my skills and acquire new ones. I consistently improve my skills with side projects and challenge myself to always go further than before. I relish learning anything new and am looking forward to learning new languages once I have mastered my current ones to a proficient level. I am currently tackling Python.

PROJECTS

[Who's Your Digimon?](#) | HTML5, CSS3, JS

A project to present users with their own randomized Digimon, from a DigiEgg to the Mega level

[WeatherQuiz](#) | HTML5, CSS3, JS, APIs

A project presenting users with questions about the current weather at 2 given locations

[A Bitter Parent](#) | React, APIs

A project promoting healthier eating by recommending a food that has at least 10g less sugar
