PROFILE

As a Junior Developer I am eager to display my skills and acquire new ones. I consistently improve my skills with side projects and challenge myself to always go further then before. I relish learning anything new and am looking forward to learning new languages once I have mastered my current ones to a proficient level, PHP and WordPress are the next skills I will tackle.

★ PROJECTS

Who's Your Digimon? | HTML5, CSS3, JS

A project to present users with their own randomized Digimon, from a DigiEgg to the Mega level

WeatherQuiz | HTML5, CSS3, JS, APIs

A project presenting users with questions about the current weather at 2 given locations

A Bitter Parent | React, APIs

A project promoting healthier eating by recommending a food that has at least 10g less sugar

💼 EMPLOYMENT HISTORY

ERP Specialist at Reliance Home Comfort, Toronto
July 2019 — February 2020

Identified expectations from Managers and Supervisors and formulated SAP implementation

Constructed procedures for each team to efficiently transfer required data from BANNER to SAP
